

Customer Information

Product Phase-Outs for Antennas and Filter Products in the 27-512 MHz Range

We hereby wish to give you advance notification of the phase-out of certain Kathrein antenna and filter products. **The phase-outs will take place by the 31st of December 2014.** Only if certain quantities are left on stock after this date, the products can still be ordered until no remainder of stock is left. The list below shows all phased out products which will also be removed from the new 2015 product catalogue. Possible replacements or alternatives are also indicated.
